

I have been on the no-call list since it's inception in Wisconsin. The ONLY illegal telemarketing calls I have received since have been from banks. In each case I have informed the caller that it is illegal to call me and have been told by the caller it was an "error".

To change this rule for a group that repeatedly flaunts the current regulations is not only unwise but absurd.

I urge you to maintain the current regulations and actively enforce them.

Thank you.
